

## Students Homework Group Feedback February to June 2016

Six homework programs consisting of 102 sessions for 2,172 students were held in the period February to June 2016 – three targeted at youth and three located in primary schools in Croydon, Mooroolbark and Ringwood East.

Students complete a survey at the end of each school term. For primary schools, teachers and tutors also complete a survey at the end of each term.

Below are the results for the client survey of students who attended the program from February to June 2016.

# Feedback from Youth

## What activities helped you?

I improve my English including research how to develop confidence my verbal and my writing ability. When I come to this program; I have started to make more friends and help me to communicate more with other people. I would also like to say thank you very much to all the tutors who help me to improve my weakness. All the tutors have very kind hearts on each of us and they all are passionate to teach us as well.

Math and English which I got the most help from this program. Also my speaking skills and my writing skills got a dramatic improvement after I joined this program.

When the tutors helped me with my homework. I improved my maths skills and research skill. It also helped me improve my English and have more confidence. Working on the computer and also having quizzes. Writing detailed stories and discussing different topics.
