

Students Homework Groups Feedback

July - December 2015

“ Six homework programs consisting of 111 sessions for 2,011 students were held in the period July to December 2015 – three targeted at youth and three located in primary schools in Croydon, Mooroolbark and Ringwood East. ”

Students complete a survey at the end of each school term.
For primary schools, teachers and tutors also complete a survey at the end of each term.

* Below are the results for the client survey of students who attended the program from July to December 2015

Feedback from Youth

What activities helped you?

The math is really good and English and also it helps me understand what I do in any subject. The one on one was really good and it gave me the opportunity to keep on my homework.

Speaking and English. Specially writing essays and my other assignments as well.

How do you think we can improve classes?

Computers needed for research.

It would be good if there was a science tutor, sometimes there is not enough tutors.

Make it fun by giving short quizzes and more teen learning like hands on.

Put 1 hour extra for the class.

More teachers and helpers and a bigger room.

Comments

The area that we have the program is very easy to learn.

I really want to give big clap to teachers who put their time and come and help after school.

Thank you for this program it's really good and it helps me understand all the things I didn't in class.
